BEST USE OF SPACE

Our range of products offers solutions to cities needing space for effective organic waste collection

IDEAL FOR

- Residential organic collection
- Collection in high-density cities
- Diversion of food waste from landfilled

Organic waste collection has never been so well adapted, manageable and effective for high-density cities.

KEY FEATURES

- IPL's injection process uses high density polyethylene (HDPE) that yields precise design and consistent thicknesses;
- UV stabilized against long-term effects of the sun;
- 100% recyclable;
- Unibody design requires no bolts or holes that could potentially leak.

STANDARD COLOURS:

Monochrome

Other colours available upon request. Colours shown may vary slightly from actual product.

Grüüm

12 GAL. - 45L

FEATURES & HIGHLIGHTS

- Lid overlaps container for a tight seal which keeps pests and water out.
- Grüüm features an ingenious lid support system:
- No need to hold the lid with one hand as it stands upward by itself.
- Collectors will appreciate that the lid locks tightly in position when fully opened.
- Comfortable Rounded Handles make the bin easy to carry and empty.
- Bigger 5" wheels make the bin easier to roll out.
- Bottom side handles make the heavy bin much easier to empty. Designed with ergonomics in mind, they mean less strain at the end of the day for collectors.
- Large footprint means the bins will stand up on the curb, not on the side. Durable, dual wear strips will protect the bottom of the bin.
- Handy additional grip weel stay free from dirt.
