Organic waste collection made
easy in high-density cities

Organic waste collection has never been so well adapted, manageable and effective for high-density cities.

Key Features

- IPL's injection process uses high density polyethylene (HDPE) that yields precise design and consistent thicknesses;
- UV stabilized against long-term effects of the sun;
- 100% recyclable;
- Unibody design requires no bolts or holes that could potentially leak.

Product features

Strong 5" wheels make the cart easier to roll out on the curb.

Side handles not only make it easier to collect heavy organic waste. They also protect the wheels from side impact.

The optionnal mantis latch is an animal-proof lock system.

Mantis latch efficiency does not mean it's hard to operate. Designed with ergonomics in mind, it's easy to clip back on with the palm of your hand.

Water lid overlaps container for a tight seal that keeps pests and water out, and trash in.

Inside, the smooth finish and rounded corners are easy to clean.

Outside, the sandblasted finish hides scratches and help keeping a neat look over time.

Types of waste

Colours available

Two tones in option. Minimum quantity required

Monochrome

Features-highlights

Lid overlaps container for a tight seal which keeps pests and water out.

Large footprint means the bins will stand up on the curb, not on the side. Durable, dual wear strips will protect the bottom of the bin.

Grüüm features an ingenious lid support system:

- No need to hold the lid with one hand as it stands upward by itself.
- Collectors will appreciate that the lid locks tightly in position when fully opened.

Bottom side handles make the heavy bin much easier to empty. Designed with ergonomics in mind, they mean less strain at the end of the day for collectors.

Comfortable Rounded Handles make the bin easy to carry and empty.

Bigger 5" wheels make the bin easier to roll out. Handy additional grip weel stay free from dirt.

Optional

- RFID-ready compartment
- Reflective stickers
- Mantis latch
- In mold labeling (lid)
- Multicolour hot stamping option

Specifications

Handle height	27 in	68.5 cm
Height above lid	25 in	63.5 cm
Width	16 in	40.6 cm
Depth	18.5 in	47 cm
Estimated weight	7.1 lbs	3.2 kg
Estimated capacity	42 lbs	19 kg
Shipping	Shipped fully assembled 1848 units per truckload

Best use of space

Our range of products offers solutions to cities needing space for effective organic waste collection.

Certifications

When you choose IPL, you work with a recognized industry leader. IPL was the first plastic injection company to achieve ISO 9001 quality certification in North America. The addition of ISO/TS16949 certification further demonstrates IPL's commitment to quality. These quality initiatives demonstrate our capabilities and know-how.
