Recycling organic waste

ENVIRONMENTAL

Efficient by nature

This new design, with the rear handle, is a new way to empty organic waste. Just use your thumb to open the lid – it stays open while you empty the contents.

Features-highlights

Closes securely

- Single-grip open/close

Dual-seal lid

- Interlocking double-seal device

Multi-grip

- Can be moved or transported using pail-style handle, contour lip, rear handle or bottom grip.

Easy waste collection

- Uneven raised base means no remaining residue once emptied.

Built-in mechanism locks handle in place

- Easy to empty in a single-handed motion, with pail-style handle kept out of your way.
- Contents never in contact with pail-style handle.

Ample opening

- Opens wide for easy, splash-free waste disposal.

Stay-open lid

- Fitted with stops that hold lid open (90 degrees).

Easy to clean

- Smooth finish inside and removable lid for easier washing, by hand or in dishwasher.

Convenient size

- Easily fits in any space, can be placed in sink under running water.

Ventilation option

- Along the top edge of the container
- On the top of the lid

Designed and made to last

- Produced from 100% recyclable polypropylene, for resistance and durability; stain- and odour-free.

Wall mounting

- Also available (optional).

A unique and modern design
for organic kitchen waste
