

Selectus

URBAN SERIES

A REAL CROWD PLEASER

Selectus

URBAN SERIES

IPL is proud to introduce Selectus, the new dual dome top lid designed to fit perfectly on our 95 gal/360 L roll-out cart. Selectus pairs contemporary design with a rugged structure built to withstand the toughest conditions. This new product is a practical and effective way to promote waste and recycling collection in public spaces and at events.

Selectus is built for industrial, commercial, and institutional environments. The dual top lid allows users to offer two types of collection with a single container. It's the perfect match for our industry-leading Mastercart, the durable easy-store and easy-use roll-out cart designed for lasting performance and leak protection. It can be used indoors and out and features smooth surfaces for easy cleaning.

Key features:

- 95 gal / 360L capacity container (MasterCart)
- Dual-compartment dome top lid.
- Available in green, brown, blue and charcoal
- Designed for fully automated, semi-automated and manual collection.
- Easy-open lightweight dual hinge lid
- Made of low-density, rotationally molded recyclable polyethylene plastic
- Manufactured with UV protection
- 3-year limited warranty (under normal use)

Options:

- Optional two bag holder inside cart
- Lid lock attachment (available June 2017)
- Three dome lid options for waste, organics and recycling (cans and bottles)
